# ABOUT US

Bigboi was founded in Australia in 2016 by a car enthusiast who had a vision to produce innovative touchless car, marine and motorcycle drying products into a market where the design element was just as significant as the functionality. Bigboi launched with a modern twist, and it's blowers have quickly captured and stamped the global market with its lime and black colour palette.

The Bigboi range of blowers and now newly developed world's first hydrophobic snow foam and shampoo have been designed to maintain the perfect paintwork appearance of your car by protecting it through both the wash and dry cycle, where most damage will occur. Our products are available for the everyday car enthusiasts to the professional detailers.

# BLOW<sup>R</sup> BUDDI

Introducing the BUDDI from Bigboi.

Catering for the enthusiast who wants an affordable yet high-quality & high-performance drying solution.

Australian designed, super-portable & compact, the all-new, BUDDI features a powerful 1.2 HP motor that pumps out at a CRAZY **250 km/h** warm (25 degrees above ambient) filtered air that will thoroughly dry your small car, bike or ski in minutes.

Only standing at 240 mm the BUDDI is the perfect drying solution to your detailing arsenal or the perfect complement to your existing Bigboi products.

Always 25°C higher than the surrounding environment

The most efficient single motor system in the industry

E/Z change foam filter using warm filtered air

Low Noise reduction technology

Adjustable wind control achieving wind speed from 72 km/h up to 250 km/h

2 stage adjustable wind control achieving wind speeds of 72km/h-250km/h.

BTT (Bigboi Temperature Technology) warm filtered air fixed at 25°C higher than the surrounding environment.

E/Z changeable foam filter (wash and re-use), allowing warm safe filtered air to pass onto the paintwork.

The most efficient twin single system in the industry consisting of 950 watts (up to 1.2 HP).

# BLOW<sup>R</sup> MINI

Introducing the MINI from Bigboi.

Packed with the latest features like dial control wind speed with a powerful 3.0 HP motor, unlike the buddi this blower pumps out **220 km/h** warm (3 stage 15°C/25°C/45°C above ambient) filtered air at a much larger volume that will thoroughly dry your car, bike or ski in minutes.

Perfect for the everyday enthusiast and the most popular choice.

3 stage adjustable  
warm filtered  
air 15°C/25°C/45°C

The most efficient single motor  
system in the industry

E/Z change foam filter  
using warm filtered air

Low Noise  
reduction technology

Adjustable wind control  
achieving wind speed from  
72 km/h up to 220 km/h

BTT (Bigboi Temperature Technology) 3 stage adjustable warm filtered air 15°C/25°C/45°C higher than the surrounding environment.

2 stage adjustable wind control achieving wind speeds of 72 km/h-220 km/h.

E/Z changeable foam filter (wash and re-use), allowing warm safe filtered air to pass onto the paintwork.

The most efficient single system in the industry consisting of 3000 watts (over 4 HP).

Extra long 3.5 meter  
Commercial Grade Hose.

Low Noise reduction  
technology with single  
filter system.

Neoprene Rubber  
Blower Nozzle tip.

# BLOW<sup>®</sup> PRO

Introducing the PRO from Bigboi.

Catering for the professional detailer or enthusiast who simply wants the best robust, powerful, high-quality, high-performance drying solution. It features front pivot wheels achieving easy mobility.

The PRO twin commercial grade 4.5 HP motors were designed for the professional environment in mind. Engineered to maximize the airflow with the BTT (Bigboi Temperature Technology) warm filtered air fixed at 20°C higher than the surrounding environment, the PRO will punch out wind speed of **280 plus km/h**, thoroughly drying your car, bike or ski within minutes. If you are a professional that want the best drying solution then the PRO will tick all your boxes plus more.

Warm filtered air  
20°C higher than the  
surrounding environment

The most efficient twin motor  
system in the industry

E/Z change foam filter  
using warm filtered air

Low Noise  
reduction technology

Adjustable wind control  
achieving wind speed from  
72 km/h up to 280 km/h

Noise reduction technology with twin filter system. The most efficient twin motor system in the industry consisting of 2x1600 watts (over 4HP).

Safe hose locking system. No need for messy external clamps.

E/Z changeable foam filter (wash and r e-use), allowing warm safe filtered air to pass onto the paintwork.

Wheel base with front pivot wheels for easy movement.

4 stage adjustable  
wind control achieving  
wind speeds  
of 72km/h-280km/h.

BTT (Bigboi Temperature  
Technology) warm filtered  
air fixed at 20°C higher  
than the surrounding  
environment.

Low Noise reduction technology with twin filter system.

Extra long 3.5 meter Commercial Grade Hose.

Neoprene Rubber Blower Nozzle.

**ACCESSORIES**

Bigboi blowers have a large range of accessories available to purchase to enhance the drying experience.

**The accessories available are:**

9 m hoses for the Pro and Mini, hose hanger, replacement filter packs, wheel base for the mini, replacement nozzles and wall brackets for both the Pro and Mini.

HYDROPHOBIC

SNOW

FOAM

& SHAMPOO

## 1 APPLY

Add desired amount (mix 1:7 – 1:15) to the foam lance to create a clinging foam.

## 2 WAIT

Let the foam sit and do its work for 4 to 5 minutes, gently dissolving the grit and dirt from the surface.

## 3 RINSE

Afterwards thoroughly rinse with water.

# HYDROPHOBIC SNOW FOAM & SHAMPOO

Bigboi Hydrophobic Snow Foam & Shampoo is a 2 in 1 hydrophobic wash that adds protection to your vehicle surface.

The benefits of hydrophobic protection on your vehicle encourages water-borne dirt and contamination to slide away, rather than stick to the surface.

Repels water with extreme beading characteristics

Advance non streak & stain formula

Treated surfaces stay looking cleaner for longer and because dirt doesn't bond as readily, cleaning the car is much easier!

Designed to work on its own or to boost existing wax, sealant layers or ceramic coats. The Hydrophobic Snow Foam & shampoo can be used as your weekly maintenance wash.

Thick highly concentrated foam

2 in 1 Snow foam & Shampoo

# PREMIUM SNOW FOAM & SHAMPOO

Bigoi Premium Snow Foam & Shampoo is a very gentle and efficient 2 in 1 cleaning product for multiple applications. This product is highly concentrated and allows you to dilute a minimal amount of detergent to water.

This means each wash now is cost-effective.

The pH-neutral formula lifts dirt and grime away from paint where it can be safely rinsed away. The unique German formulation of the shampoo delivers millions of cleaning bubbles that once foamed onto a surface, works fast at lifting abrasive contaminants away from your paintwork.

Non-contact,  
pre-wash cleaner

Advance non streak  
& stain formula

Thick highly  
concentrated foam

2 in 1 Snow  
foam & Shampoo
